Grunewald	<p>Hello Parents and Students:</p> <p>Most of my students are on <i>Remind</i> and <i>Google Classroom</i>, however, I have a few students who have not joined, so I am sending out this mass-email with the information they need so I can communicate with most of my students during this unprecedented time. Thank you and stay healthy!</p> <p>To join <i>Remind</i>: 1. Be in text mode on your phone. 2. Type 81010 in the To: box and 3. In the text box, type the code appropriate code below. 4. Send the text.</p> <p><i>Remind</i> for Economic students: @46fghab      World History students: @bhgc63</p> <p>The following codes are for joining Google Classroom:</p> <p>2nd Hour Economics: qonkkvt</p> <p>3rd Hour WH: k26e2mp</p> <p>4th Hour Economics: onlbdgq</p> <p>5th Hour WH: 733iwwv</p> <p>6th Hour: Economics: kah2efk</p> <p>Thank you to the few students who did not join at the beginning of the semester. FYI- I plan on sending out educational opportunities for you to keep your minds active and to stay connected :)</p>
Hassett	<p>Hello students and parents,</p> <p>As you are aware, we are having interesting times with school systems right now. While many classes will simply be taking this time off, the A.P. Exam dates will probably not be moved. For that reason, it is important that we use the next 3-4 weeks in a productive manner to help us prepare for the A.P. Calculus</p>

	<p>Exam.</p> <p>Every student has a A.P. Classroom account. They have all logged into it before. This is new this year, so I am still learning what is available through this set. Over the weekend, I will review this sight and give you further instructions. My goal is to use this site to help students start reviewing material that we have already learned. This site has checkpoints and practice A.P. exam questions that we can use to prepare for the exam. Please be checking your email throughout this break for updated on activities that you are encouraged to do. Also, feel free to email if you have any questions on anything Calculus related. I will do my best to reply that day.</p> <p>Stay healthy,</p> <p>Mr. Jim Hassett</p> <p>A.P. Calculus Teacher</p>
Markwart	<p>Dear Parents and Students</p> <p>In my 26 years of teaching I have never thought in my wildest dreams that something like this would happen. As I set up watching the Governor speak on Thursday night I would have never guessed that I would not be seeing you again for four weeks. I hope that all of you stay healthy and happy.</p> <p>There is some good and bad news. The bad news is there will be no homework issued over the next four weeks. The good news is that there will be no new homework issued over the next four weeks.</p> <p>Things I will suggest since you have time, Keep your mind active, read books, do puzzles, spend time with your families, read online about things that interest you, and most of all keep active. You can continue to learn even though you are not in school.</p> <p>Don't just set on the couch and eat Cheetos at least not all the time. I also plan on eating a few Cheetos.</p> <p>I will be sending out emails periodically and checking my email daily. The school has set up a website so you can track what is going on.</p> <p>Thank you for being such great students.</p> <p>Mr. Markwart</p>

	<p>Parents and Students</p> <p>I know I just sent an email earlier today, but I have some things that parents and students can do together.</p> <p>Our next unit we are going to be working on is Payroll, taxes, living expenses and retirement. Over the next week Parents if you haven't filed your taxes yet either allow them to help or at least talk to them about your experience with taxes. Even get a 1040EZ form from the post office and look it over with them and show them how to fill one out. I know through my discussions with your children that they are nervous about many subjects they will have to deal with after graduation.</p> <p>Another topic you can discuss is living expenses. Many students believe it or not is Auto Insurance. Talk to them about how to get it. How you choose the company that you did. Show them your policy and explain what they are looking at.</p> <p>Finally have a discussion on Retirement. When did you start. Pit falls that you fell into. How you choose your retirement plan. What is your plan for retirement.</p> <p>You can help them by just having a discussion about this topics. You will be amazed what they will be willing to talk to you about. Anything you can do to help your children with this will help. It does not have to be hours just start the conversation.</p> <p>Students be willing to have and listen to these conversations. These are the types of things I was talking about educating yourself over break.</p> <p>When we get back we will be going over all of these topics. I will be asking about your conversations.</p> <p>Next week I will send you another list of topics that you can discuss with each other.</p> <p>Thank you for being great students and have a good week.</p> <p>Mr. Markwart</p>
Smith	<p><b>Eng.12</b> - I encouraged the class to keep reading our current novel, <u>Jane Eyre</u>, and I posted revision of our reading plan (as a suggestion, of course). I began today's Remind post by sharing how much I was able to read today, and I Invited the class to do online discussions using Google Hangouts. (I have yet to have any takers on that last one, though.)</p> <p><b>Drama</b> - We were gearing up for the musical, so that's a tough one now. We did have a minor side project going with inspecting the feasibility of producing a different show, so I encouraged the class to look for ways to continue considering that analysis.</p>

	<p><b>Publications</b> - Since we were in the final 2-3 weeks of yearbook production, our communications have been very task-specific. I literally just asked someone from the senior quotes group to give me edit access to their Google doc so I can make changes. Several of the editors and I have been communicating as needed about specific tasks since even before the shut-down; it's like this hasn't even phased them.</p>
Cornelius	<p>I updated daily workout ideas on my teacher webpage and also listed my Remind info on there for people to add. I will send out some health ideas and tips to do at home.</p> <p>I will keep adding as I learn to maneuver the webpage setup better.</p>
Mir	<p>Good afternoon WOW!!! This is quite a whirlwind, huh? I will contact you guys through email as often as I can with updates as soon as I know them. As of now, I would like you to complete your essay and share it with me by Friday. Feel free to email me with any questions or concerns. Our schedule was to read Lord of the Flies next, followed by Julius Caesar. Julius Caesar is EASY to find online. I may just switch the order. I am as unsure as you are as to where we are headed right now. I am thinking of you and wish you the best. Like I said, contact me with any concerns about anything. Just in case some kids do not check their email, can you share this information? Thanks Mrs. Mir</p>
Hager	<p>A.P. World</p> <p>AP students below are the main issues for the following chapters, if you have a book read, if not you can research these topics. I have also listed some practice exam websites you may try, the last one is the College Board site for test information.</p> <p>We will get through this</p> <p>R Hager</p> <p>Chapter 26: African Diaspora, Triangular Trade Ch 27: Ming and Qing Stability, Unification of Japan Ch 28: Islamic Empires Ottoman, Safavid, Mughal Ch 29: Enlightenment Revolutions, Nationalism Ch 30: Industrialization, Social effects of Industrialization Ch 31 Development of the United States, Canada, and Latin America</p>

	<p>Ch 32 Decline of Non-European Empires, Transformation of Japan Ch 33 Western Imperialism, Effects of Imperialism</p> <p><a href="https://www.appracticeexams.com/ap-world-history/">https://www.appracticeexams.com/ap-world-history/</a>  <a href="https://www.varsitytutors.com/ap_world_history-practice-tests">https://www.varsitytutors.com/ap_world_history-practice-tests</a>  <a href="https://blog.prepscholar.com/ap-world-history-practice-tests-and-quizzes">https://blog.prepscholar.com/ap-world-history-practice-tests-and-quizzes</a>  <a href="https://www.kaptest.com/study/ap-world-history/ap-world-history-practice-questions-quiz-1/">https://www.kaptest.com/study/ap-world-history/ap-world-history-practice-questions-quiz-1/</a>  <a href="https://apcentral.collegeboard.org/courses/ap-world-history/exam">https://apcentral.collegeboard.org/courses/ap-world-history/exam</a></p> <p>Government Class</p> <p><a href="https://drive.google.com/open?id=1uFHh4mn1-lWRkoC46rjGY3wezybSJva3">https://drive.google.com/open?id=1uFHh4mn1-lWRkoC46rjGY3wezybSJva3</a></p>
Kaatz	<p>I have posted in the google classroom:</p> <ol style="list-style-type: none"> <li>1. A link to Khan Academy with videos/lessons/quizzes of what we have done so far and it also has information on what I was planning on covering next.</li> <li>2. PDF copies of the sections of the book that we were working on/coming next</li> <li>3. Guided reading WS that go with the book</li> <li>4. Practice Tests/ Quizzes for each section of the book</li> <li>5. As much as possible - links to videos on youtube that cover the material (Hip Hughes, John Green, etc)</li> </ol> <p>We have used Google classroom at school already, so every student is linked to it.</p> <p>I also updated my Lakewood website to say that all of this is available on Google Classroom, listed the google classroom code and a remind class code in case anyone needed it.</p> <p>Let me know if there is anything else I can help with, Katie Kaatz</p>
Guiles	<p>Google Classroom code is : <b>lw1md7g</b></p> <p><b>Bloomz Code is:</b> 89E5NE</p> <p>Hope you all are stilling doing well and staying healthy! I will be sending out some more stuff in the next day or two!</p> <p>Mrs. Guiles</p>
Flessner	<p>Hi all,</p>

	<p>With being out for a month, we will miss quite a lot of content. I would highly recommend reading and taking notes on the following chapters and going through the practice problems within the chapters.</p> <p>Ch 15 acid-base equilibria (currently in)</p> <p>Ch 16 solubility equilibria (currently in)</p> <p>Ch 17 thermodynamics</p> <p>Ch 18 redox reactions and electrochemistry</p> <p>I also highly recommend watching and the Khan Academy videos for those topics. See link below.</p> <p><a href="https://www.khanacademy.org/science/ap-chemistry">https://www.khanacademy.org/science/ap-chemistry</a></p> <p>I would also highly recommend reviewing over topics already covered either through Khan Academy or through a review book. The Princeton review book is pretty good and the older year editions are just as good as the current year (the older editions will be cheaper too). Also Crash Course AP chemistry by Adrian Dingle is a good review book.</p> <p>We will pick up with these topics when we get back, however we will have to cover them in reduced time, so the more you can prepare over these next weeks the better.</p> <p>If you have questions, I will do my best to answer through email. I wish you guys the best, and have a safe time off.</p> <p>Mrs. Flessner</p> <p>Hi all,</p> <p>With being out for a month, we will miss time to cover quite a lot of content. I would highly recommend watching the videos and taking notes on the Khan Academy's physics videos (see link below). I have also attached the link to Phet lab simulations that allow you to play with certain physics properties.</p> <p>We will pick up with these topics when we get back, however we will have to cover them in reduced time, so the more you can prepare over these next</p>
--	--

	<p>weeks the better.</p> <p>If you have questions, I will do my best to answer through email. I wish you guys the best, and have a safe time off.</p> <p>Mrs. Flessner</p> <p>Physical Science - Physics Khan Academy</p> <p><a href="https://www.khanacademy.org/science/physics">https://www.khanacademy.org/science/physics</a></p> <p>Phet lab simulations</p> <p><a href="https://phet.colorado.edu/en/simulations/category/physics">https://phet.colorado.edu/en/simulations/category/physics</a></p>
Suntken	<p>Hello students and parents. We have only been away from school a few days, and I miss my Environmental Science classes already! I look forward each school day to spending time with you. You all have helped me learn this school year and I really appreciate you.</p> <p>Students, I have found an excellent video for you to watch (less than 17 minutes long) and I have written 6 questions to help you think through the facts presented. This assignment is designed to help build your knowledge. If you would like to submit your responses to me, I will read them record that you have submitted them to me, but at this time I do not know if I will be permitted to use them for a grade. I will also attempt (using my personal hotspot for Internet is pretty sketchy) to set up Edmodo with this lesson and you can submit your responses there if you wish.</p> <p>Parents, I also recommend that you watch the video and discuss it with your student. The speaker in the video provides valuable factual information regarding COVID-19.</p> <p>Finally, please take good care of one another. Share what you learn from the video with those that are important in your life. If there is anything you need from me, please feel free to email me at <a href="mailto:suntkenl@lakewoodps.org">suntkenl@lakewoodps.org</a> or call or text me at 517-898-6847.</p> <p>In case the attachment does not open, here is the link to the video and a paste of the document attached.</p> <p>WEEK 1 ENRICHMENT ASSIGNMENT</p> <p><a href="https://m.youtube.com/watch?v=Fqw-9yMV0sI">https://m.youtube.com/watch?v=Fqw-9yMV0sI</a></p> <p><b>Learning Target:</b> Visit YouTube and watch the video. Respond to the questions below. Less than 17 minutes, only 6 questions. Read the questions before you watch. Pause the video as necessary.</p>

**Video description:** *Coronavirus Is Our Future/Alanna Shaikh/TEDxSMU*; 16:46, published March 11, 2020

<https://m.youtube.com/watch?v=Fqw-9yMV0sI>

1. The speaker says we should not just listen to *everyone* that wants to talk about this virus. What credentials does the speaker have? What makes her qualified as a reliable source of information?
2. What does it mean to call COVID-19 virus “zoonotic”? Other zoonotic viruses exist, such as the bird flu, that we don’t really worry much about. How is COVID-19 different from the bird flu?
3. Carefully listen to Alanna’s explanation for why we are facing this new virus. What activities do humans engage in that have led to this virus being introduced to our society? There are two parts to her explanation. Respond with consideration for both parts.
4. The speaker says that more infectious diseases will erupt and future outbreaks are inevitable. We need to prepare for them. Alanna has some big recommendations for our societies regarding healthcare. What does she say we can do in order to better manage future outbreaks?
5. How would this outbreak have happened differently if we were “perfectly prepared”?
6. What can we do? What recommendations does Alanna have for us (about 14 min into the video)?

Hello Botany students and parents,

Will this extra time on your hands and the early onset of spring weather, I encourage you to get outdoors and appreciate nature. I have a few suggestions for you as you enjoy this opportunity to connect with nature.

1. Listen for the bird songs and try to identify as many unique calls as possible.
2. Notice the buds appearing on the trees around you. Soon they will transform into leaves! Consider the massive mitosis that is taking place to transform the bare branches into fantastic foliage!
3. Consider loading an app that allows you to identify plant species. The following video link gives information about various applications you can use to identify plants (and other wild life).

<https://www.youtube.com/watch?v=p7Qw1Ch28Nw>

Be well and take good care of your family unit at this time. I miss you all tremendously.

Kadwell	<p>AP Lang - Hello. This is my official welcome for you to take part in the AP Language and Composition google classroom. The following code: pcmfpnj should allow you to enter the right spot. I think this is an exciting opportunity - not ideal, but a unique way of enabling students to participate in a learning environment without the pressure of grades. It's weird, I know. What I hope is that we are prepared and committed. The Google Classroom will give us the ability to keep moving ahead with hour studies. I hope to see you there.</p> <p>AP Lit - Here is the code to enter Google Classroom for AP Lit. Let me say a few things up front. I believe we have a unique opportunity here - while not ideal, we can still accomplish a lot. We need to work together and be united in the attempt. To that end, I'm hoping you choose to participate - and if you choose to participate you are prepared for what we do. I have a lot of ideas. Some will work. Some will be an experiment. I'm committed to continuing the journey we started.</p> <p>Here's the code: d3ekokd</p> <p>English 11B - Hello Everyone,</p> <p>It has been a strange few days. I hope this email finds everyone well. I know that there is a range of emotion out in the community - confusion, frustration, anger - and a lot of anxiety. I first want to say that you should not hesitate to contact me with questions as they come up. I will answer as best I can and forward questions I am unable to answer on to administration. The opportunities that I suggest for students to continue working will be just that - "opportunities." While I will be recording grades in Synergy, they will be "not for grading." I want to encourage everyone to continue working through this hiatus so that we do not fall too far behind. We can collectively gain a bit of normalcy by continuing to follow patterns with regard to our education. I know that it will be difficult at times, but I believe that if we work together we can stay on track and mitigate some of the losses that are inevitable as a result of our current reality. I will be communicating through Synergy, Khan Academy, and the College Board. Additionally, I plan on setting up Google Classrooms to use. I will be sending out assignments beginning later today.</p> <p>Sincerely,</p> <p>Mr. Kadwell</p>
Hall	<p>Hello Class,</p> <p>I know this is the moment you have all been waiting for...when is Mr. Hall going to give me some Math options to work on! Your wait is finally over. I have spent some time this week editing and updating my website. It now includes: links to video lessons for our text, an all new digital textbook, and materials for chapters 7 and 8. As you explore the site you will notice that I did not assign specific problems. I am hopeful that you will take some time to watch the videos for chapters 7 and 8. Then you can pick a few of problems to</p>

	<p>try. This will help you maintain your skills until such a time as we return to class.</p> <p>Here is the link to my website: <a href="https://www.lakewoodps.org/erichall">https://www.lakewoodps.org/erichall</a> just select PreCalc on the left.</p> <p>I hope this finds you well,</p> <p>Mr. Eric Hall</p> <p>Hello class,</p> <p>I have had many of you email me about grades and what you can be working on. I have spent some time over the last couple of days putting together a google classroom for us to communicate with each other. You can access it by signing into google with your student email. You will then go to google classroom and join the class by entering the join code z27qgo2 . After doing this you will have access and will see some assignments that I have posted.</p> <p>These assignments are for enrichment and will help you maintain your math skills for when we return. I will be adding more items over the next week or so.</p> <p>Be well,</p> <p>Eric Hall</p>
Harmer	<p><a href="https://drive.google.com/file/d/1RULntLn2IQIzUYt-TD-REhXCYQqRCST/view?usp=sharing">https://drive.google.com/file/d/1RULntLn2IQIzUYt-TD-REhXCYQqRCST/view?usp=sharing</a></p>
